WORDS FROM THE GRANDMASTER

The Ability to keep trying, to keep pushing, to keep working hard, even when it seems like nothing will work is what leads to success. This lessons attitude of never quitting is one of the important lessons taught through martial arts classes. To become a champion, you have to take your martial arts very seriously. Which mean, train hard, and always practice what you've learn. It's just like school. If you don't do your homework nor study, you will fail. Then you will be wasting lots of precious time of your life. Everyone is born with a gift. You have to discover it.

Grandmaster Earl M. Harris
